## IN TWO LINES

My background is **PHP/Laravel** plus years of **React** on web and mobile. Today every project runs through coding agents, orchestrated by Footility.

## CORE STACK

|                                                                                                                                        |           |
|----------------------------------------------------------------------------------------------------------------------------------------|-----------|
|  <b>Laravel</b><br>up to 11 · Livewire               | ● ● ● ● ● |
|  <b>PHP</b><br>7.x / 8.1+                            | ● ● ● ● ● |
|  <b>MySQL / SQL</b><br>schema, queries, tuning       | ● ● ● ● ● |
|  <b>React / React Native</b><br>web + mobile         | ● ● ● ● ● |
|  <b>JavaScript / TS</b><br>ES6+, TypeScript          | ● ● ● ● ● |
|  <b>Git &amp; AI workflow</b><br>Cursor, Claude Code | ● ● ● ● ● |

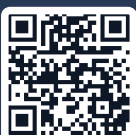

## EDUCATION

**BSc in Computer Science**  
Milano-Bicocca University — **2010**

**Computer Science Diploma**  
I.T.I.S. E. Mattei, Italy — **2005**

## LANGUAGES

**Italian** Native  
**English** Technical — docs, writing, meetings

## I ship software to production, from analysis to release.

I take a project end to end — analysis, plan, build, delivery — or just the engineering inside a team already running. Production Laravel apps with React or Livewire front-ends, cross-platform mobile apps and **migrations of legacy systems** with real users.

Project-based

Ongoing collaboration

Team augmentation

APPS SHIPPED

## EXPERIENCE

### Full Stack Developer — External collaborator

Gigamind · Chieri (TO), Italy — remote

ONGOING

2024 → present

- Migration of the Klabhouse legacy system: property bookings, booking funnel and payment integrations, with incremental parity review against the previous production site.
- AI-assisted workflow to explore the legacy code, generate the equivalent modules and document them per functional area.

 Laravel 11  Livewire 3  CodeIgniter 3  Stripe  MySQL

### Full Stack Developer / IT Consultant — Freelance

Footility · Lissone (MB), Italy

ONGOING

2019 → present

- Freelance software studio for SMEs: custom management systems, mobile apps and technical consulting, from requirements analysis to delivery.
- Footility**, my own product: a platform that orchestrates **LLM coding agents** across production repositories, with automated code analysis for estimates, architectures and work plans.

 Laravel 10  PHP 8.2  React Native  Expo  Claude Code

### Main Teacher · Lead Teacher Assistant

Boolean.careers · Milan, Italy

COMPLETED

2021 – 2025

- Teaching in an intensive web-development bootcamp, growing from Teacher Assistant to Main Teacher and Lead TA.
- Mentoring junior students, code review and support during their final projects.

 PHP  Laravel  Vue.js  .NET C#

### Full Stack Developer, Team Leader

Alkemy SPA · Milan, Italy

COMPLETED

2018 – 2019

- Enterprise B2B projects for Trenord (rail mobility), Very Mobile and WindTre: portals and back-office.
- Technical coordination of the team, code review and growing the juniors.

 PHP  TYPO3  Laravel  jQuery

## OTHER ONGOING PROJECTS

**Holiday Self Drive** iOS/Android app for camper and car rentals, Laravel backoffice, multi-destination **Next.js · Capacitor**

**CactusBoard** Business system: projects, clients, budgets with granular permissions, automated bank-transaction matching **Laravel 10 · Vuexy**

**MsCarichi** Operations scheduler: suppliers, hauliers, load splitting with commissions, protected APIs **Laravel 10 · Sanctum**

### This is the short version.
